Aging Services Committee Spotlight: Executive Committee

A message from Kevin McFeely and Mark Mullen

The Executive Committee consists of the Chair, the Chair Elect), Secretary, Treasurer, the Immediate Past Chair and one member of the Directors-at-Large elected by the Board at its Annual Meeting. The Executive Committee members have the immediate oversight of the business and affairs of the association, provided however, that any action that would otherwise require approval of the board of directors shall be subject to ratification by the Board of Directors.

So now that the legal description is out of the way, what does this mean? Simply put, this group is the officers of the Board who are available at a moment's notice to deal with the business of the Association that cannot wait until the next regularly scheduled Board meeting. There have been times we met via conference call, in person, at the State Capitol, in the Association offices and sometimes at member communities. During the legislative session, it is critical that Deb Murphy has access to the members of the Executive Committee as proposed laws come fast and furious and she needs to discuss these with the Executive Committee members as soon as possible to insure the position of the Association is clearly understood when addressing these proposals. It is a group that works well together and *the* remaining at-large Board members appreciate the due diligence that is completed by this group when items requiring action are brought to the full Board. The Executive Committee is crucial in this fast changing world of ours. Many thanks to the members of this Committee for their tireless dedication and willingness to address issues quickly.
