The Alta Logos

This guide is intended for anyone producing communications for Alta Forest Products, and outlines the different elements that make up our corporate identity. The purpose is to ensure that all our work embodies Alta brand attributes, expresses them consistently, and helps to build and awareness of the brand.
The Brand Colors & Fonts

The Alta logo is comprised of one or more brand colors. Color space used will depend on the method of reproduction. When in doubt, ask your vendor or refer to the guide on page 6.

Care should be taken to ensure that the Alta logo is legible when placed on a colored background:

</tr>
<tr>
<td>Full color logo</td>
<td><img src="image1.png" alt="Full Color Logo" /></td>

<td><img src="image5.png" alt="B&amp;W Logo (White Version)" /></td>
</tr>
</tbody>
</table>
A strong brand image can only be achieved if the Alta logo is presented consistently and never altered from their final lockup. When in doubt, or when trying to make it match a design piece, use the horizontal or vertical full color or black & white logo.

**Please do not...**

- change the scale of any part of the logo
- use a different font(s)
- stretch or skew the logo
- present the logo inside a shape
- present the logo inside a shape
- present the logo at an angle
- change any logo colors
- or
- separate elements of the logo
